a unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations when do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear in revolutionary contagion chad e nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations to do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and islamism he further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries according to the theory nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents in other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state a powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion

the nature of the contemporary global political economy and the significance of the current crisis are a matter of wide ranging intellectual and political debate which has contributed to a revival of interest in marx s critique of political economy this book interrogates such a critique within the broader framework of the history of political economy and offers a new appreciation of its contemporary relevance a distinctive feature of this study is its use of the new historical critical edition of the writings of marx and engels mega2 their partially unpublished notebooks in particular the sheer volume of this material forces a renewed encounter with marx it demonstrates that the international sphere and non european societies had an increasing importance in his research which developed the scientific elements elaborated by marx s predecessors this book questions widespread assumptions that the nation state was the starting point for the

analysis of development it explores the international foundations of political economy from mercantilism to adam smith and david ricardo and to hegel and investigates how the understanding of the international political economy informs the interpretations of history to which it gave rise the book then traces the developments of marx s critique of political economy from the early 1840s to capital volume 1 and shows that his deepening understanding of the laws of capitalist uneven and combined development allowed him to recognise the growth of a world working class marx s work thus offers the necessary categories to develop an alternative to methodological nationalism and eurocentrism grounded in a critique of political economy this book is essential reading for anyone interested in the development of marx s thought and in the foundations of international political economy
